

INVEST IN METZ

ADVANCED MEDIUM MATRIX YOUR LOCAL DATA CENTRE

BUSINESS OPPORTUNITY AREA

MOSL

A RELIABLE, SECURE AND ADAPTED LOCAL HOSTING SOLUTION

LOCATED IN METZ, CLOSE TO MAJOR TRANSPORT ROUTES THAT EASILY LINK PARIS, MAJOR FRENCH CITIES AND NEIGHBOURING EUROPEAN METROPOLISES

WHY SHOULD YOU CHOOSE TO OUTSOURCE YOUR IT SYSTEM TO A DATA CENTRE? FOR THE FOLLOWING REASONS:

- > containment of the costs associated with operating IT equipment,
- > performance and reliability,
- > security of IT equipment,
- > data sovereignty,
- > flexibility and scalability,
- > fundamental expertise,
- > peace of mind.

> a highly secure data centre with maximum connectivity:

- robustness of IT equipment that is particularly sensitive to overheating and humidity through a controlled atmosphere,
- rooms kept at a constant temperature,
- advanced system for the prevention of fire and water damage,
- highly secure infrastructure (cameras, radar, access etc.),
- IT room supplied by two 520kW power sources providing continuous availability (no service interruptions for customers),
- continuous connection to the Internet guaranteed by several independent and reliable fibre optic connections.

- heat generated by servers is recycled,
- signatory to the EU CODE OF CONDUCT for data centres,
- rainwater recovery,
- free cooling system,
- 100% green energy consumption,
- Priority to Made in France & Made in Europe.

> guaranteed and certified commitments.

- Tier III TCCF “Tier Certification Constructed Facility” issued by the Uptime Institute, the worldwide reference for data centre qualification,
- ISO 14001 Environmental Management and ISO 50001 Energy Management certified,
- Several other certifications have been obtained, thereby guaranteeing a level of service that complies with the highest standards.

> an eco-responsible data centre:

- PUE (Power Usage Effectiveness) below 1.3,
- photovoltaic production from the solar panel installation,
